# Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

#### Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site, and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Ames and vicinity.

#### The Ames Directory Library

Through the courtesy of the publishers of the Ames City Directory, a Directory Library is maintained in the offices of the Ames Public Library, for free reference by the general public. This is one of more than over 800 Directory Libraries installed in cities and towns throughout the United States, Canada and Puerto Rico through the courtesy of your Publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

The National Animal Disease Laboratory, Ames, Iowa, is the United States Department of Agriculture's research center for investigation of livestock and poultry diseases that occur in the United States. The laboratory, completed and occupied in 1961, is a complex of fire-resistant buildings located on a 318 acre tract of land approximately three miles northeast of the city. Constructed for approximately \$16.5 million, the laboratory with an operating budget in excess of \$6.5 million annually, each year continues to expand in research and

laboratory facilities. This, the world's most modern veterinary research facility, requires as many utilities and services as a small city. Many of the animals used in the various research projects are reared at the Animal Production Unit, which is located approximately one and one-eighth miles south of the main laboratory on a site consisting of some 45 acres. The laboratory employs approximately 475 persons, one-fourth of which are scientists—research veterinarians, microbiologists, biochemists, physicists, and other biological scientists. A number of laboratory assistants, technicians, and administrative personnel are also employed.

The aims and purposes of this laboratory are to develop basic and applied research programs on infectious and non-infectious diseases of animals that rob the American farmers of approximately \$2 billion annually, and decrease the potential of an adequate supply of animal protein to the consumer. Investigation of each disease entity is conducted by a team of scientists who have different and specialized training.

In addition to the research program, two regulatory divisions have programs associated with the laboratory. These include setting standards and testing veterinary biologics for safety and potency, and providing diagnostic services to support Federal programs for the control and eradication of animal diseases.

## THE IOWA STATE HIGHWAY COMMISSION

The responsibility of the Iowa State Highway Commission is to provide the road user with as fine a system of highways as is economically possible, and to protect that investment by continuous maintenance for safe year-round travel.

Created in the dirt road days of 1904 to make investigations of road conditions and to advise local authorities, the Iowa State Highway Commission today reflects the increasing awareness by Iowans of the importance of highway transportation to the state's development and progress.

The five members of the Commission, appointed by the Governor, establish organization policies. The administration of those policies is the responsibility of the Directory of Highways, who is selected by the Commissioners.

Basic functions of the Commission are to:

- 1. Develop and maintain a current inventory of all highway facilities in the state.
- 2. Analyze and project highway needs.
- 3. Plan, program and design the necessary highway facilities including toll bridges, to meet these needs.
- 4. Acquire right of way, let contracts and supervise construction of new highway facilities.
- 5. Maintain highway facilities in a safe and well-kept condition for the motoring public.

The Highway Commission today is responsible for 8,915 miles of rural primary highways, 1,279 miles of primary extensions in cities and towns, 209 miles of state park and institution roads and for joint control with the 99 county boards of supervisors over 90,228 miles of secondary roads.

The Commission cooperates with county authorities in approving plans and contracts for road construction, approves budgets for secondary roads, reviews city programs, budgets and plans for street improvements, provides engineering assistance to other state departments, works closely with cities and towns in preparation of long-range plans.

More than 1,100 persons are employed in the Highway Commission state headquarters in Ames. More than 3,000 additional personnel are employed by the commission throughout the state. This total includes Commission maintenance forces at 167 garages in the 99 counties.

The Commission has six district offices, 24 resident construction offices and 24 maintenance offices.

Salaries paid to Ames area employees in 1970 totaled \$10 million. The state wide payroll for the Highway Commission in 1970 was \$32 million.

During fiscal 1970 \$155 million was expended on the primary system. Highway construction that year accounted for more than \$105 million and maintenance more than \$23 million.

In that same year the Commission awarded nearly \$102 million in highway construction contracts and acquired \$14 million worth of right of way.

Central offices of the Iowa State Highway Commission in Ames, completed in 1961.

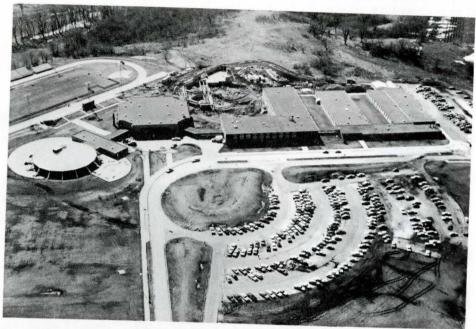

#### AMES PUBLIC SCHOOLS

With modern, well-equipped school buildings and with modern educational philosophies and practices, the Ames Public Schools offer a splendid opportunity for the education of the children of the city. The school plant comprises twenty-four buildings, with a present total new replacement value of \$16,207,-500. This plant includes the new Senior High School; the downtown Central Junior High School Building and its splendid auditorium and gymnasium facilities; the new Welch Junior High; the Beardshear, Crawford, Edwards, Fellows, Harlan, Lincoln, Meeker, Mitchell, North Grant, Northwood, Roosevelt, Sawyer, Whittier, and Willson Elementary Schools, and the Maintenance Building. The Lincoln Elementary School has been converted to Central Administration.

Ten projects were completed during the past five years. A stadium with a well-lighted football field and an all-weather Grasstex track was used for the first complete football season in the fall of 1966. Connected with this stadium is a senior high school gymnasium that was dedicated in February, 1967. A joint city-school recreation building housing a 75' x 75' swimming pool is connected with the gymnasium and is used jointly by the school and city. A new elementary school, the Fellows School, was dedicated in April, 1967. A new Welch Junior High School for the west side of Ames was opened in the fall of 1968. The outgrown Welch Building, which a few years ago served both junior high and elementary school students, has been converted to full time elementary use and named John E. Harlan School. Additions were built to elementary schools to provide them with needed classrooms and Central facilities, particularly instructional material centers. Two new elementary schools were completed in 1970, Mitchell and Northwood.

During the past fifteen years ten different bond issues were successfully carried to authorize the construction of five elementary schools, additions to

nine elementary schools, remodeling of junior high school facilities, a new high school, and a new junior high school. The most recent of the ten successful bond issues, the \$3,900,000 issue approved in March, 1968, provided funds to build two new elementary schools, additions to four elementary schools, an addition to the Senior High School, and an addition to the Welch Junior High School. There were a total of 112 elementary classrooms with related facilities and 67 secondary classrooms in these construction projects. A million dollar addition to the Senior High School, an addition to Beardshear Elementary School, and another four-classroom addition to Welch Junior High School are now under way from these funds.

Ames Senior High School

The new Senior High School was constructed a unit at a time as funds permitted on a beautiful, spacious 74 acre site. Some additional well-located sites are being acquired on which to build more schools to meet the needs of the

Each year the average teaching load has been kept at about 25 children per teacher by providing additional classroom space and more teachers. The central office staff has also been increased during the past two years by the employment of a Curriculum Director and an Instructional Materials Coordinator to continue to improve the services to individual students and classroom teachers.

Pupil enrollment, exclusive of about 2,000 people in adult education, is 6,250. There are approximately 380 teachers and other professional staff members and 200 other personnel—secretaries, food service employees, and custodians. The Ames Schools have a fine staff of supervisors who give guidance in the curriculum areas at all levels. There also are special education services for children at all levels.

#### Conclusion

From the foregoing factual data, it can be seen that Ames offers many advantages—Social, economic, educational. It has an exceptionally high health rating; it is a city of beautiful homes, situated in one of the fairest states in the land, in the heart of the world's wealthiest agricultural region. Ames possesses virtually every element vital to the social and economic welfare and personal happiness of the individual, and every element of success for the small business or small industry.

The Federal Land Bank Association has an office in Nevada. Serves two and one-half counties. \$19,000,000 loans outstanding.

POST OFFICE-Class A, the second largest in the state based on total

NEWSPAPER—Community served by six-day daily newspaper. Nevaga Evening Journal, daily circulation 4,650 county wide (and more). Smallest city in Iowa with a daily paper and ranks 30th out of 40 daily Iowa papers.

MEDICAL—Story County Hospital, one of Iowa's most modern small hospitals, was originally built in Nevada in 1951. The Reine Wells wing was added in 1969 and at the same time a complete renovation of the older section was undertaken. This 80 bed institution is capably staffed twenty-four hours a day and features the most up-to-date equipment, including a coronary care unit that is outstanding.

Nevada has four nursing homes for the elderly and infirm. Four physicians, one osteopathic physician, three dentists, two chiropractors and one optometrist provide for the needs of Nevada and surrounding area.

RECREATION—Parks: North Park, playground, picnic area; 4-H grounds with free campground, electricity free, softball diamond, lighted tennis court (skating in the winter). Little League ball sponsored by City Recreation Association. East Story County Swimming Pool, a nontax supported pool. Hickory

Grove, county lake and recreation area, 5 miles southeast of Nevada. Indian Creek Country Club, 9-hole golf course (Real estate and plans for adding 9 more). Ten lane bowling alley. Camelot Theater, recently completed and beautifully renovated, seats approximately 500 (one of a chain owned by operator).

Nevada's new (1957) swimming pool was built with \$75,000 in donated money. Kids from all over East Story County come here to take part in summer Red Cross water safety programs and just to have fun.

CHURCHES-9, represents communities faiths.

CIVIC, FRATERNAL AND SOCIAL ORGANIZATIONS—Chapters in organizations such as Lions, Rotary, Toastmasters, Jaycees, all the veterans organizations and auxiliaries, Masons, IOOF, Knights of Columbus, Soroptimists, PEO Sisterhood, Beta Sigma Phi (2 chapters), WaTanYe, Women's Club, Golden Agers, Newcomers Club, Boy and Girl Scouts.

#### **Facilities**

EDUCATION—Nevada Community School District includes one senior high, one junior high and two grade schools. Total enrollment is approximately 1,600 pupils. (1969-70 Mid-Year).

Parochial: Seventh-day Adventist Church School, 1 thru 8th grade; Oak Park Academy, 9th thru 12th grades. Approximately 180 pupils. The academy is a boarding type high school.

Nevada is in the Area XI Technical Vocational College District. The college is located 30 miles south of Nevada. It is a two year college.

Iowa State University is located in Ames, 10 miles west of Nevada. It is a four year college and graduate school.

POLICE-Law enforcement is provided by four uniformed policemen and two part-time officers.

FIRE—Fire protection is handled by a 20 man volunteer fire department with a full time chief on salary. Equipment for fire fighting: 2 pumper trucks (1 rural, 1 city), 1 tanker truck, resuscitator and inhalator. Insurance: Class VII within incorporate limits; Class 10B adjacent districts.

# Study all directory advertising invoices carefully

Business and Classified Directory publishers under various names have flooded our mails for several years with solicitations resembling City Directory invoices. Most such solicitations state that they are not invoices, but nevertheless business people frequently overlook this and process them for payment.

What seems like an invoice may really be a carefully worded proposal for service-of an indefinite natureand questionable value—to be rendered in the future, if you pay in advance. If in doubt, check with your local Better Business Bureau, or your established City Directory publisher.

Before you invest, investigate!

# A STATEMENT OF ADVERTISING PRINCIPLES

- 1. Good Advertising waims to inform the consumer and help him to buy more intelligently.
- 2. Good Advertising we tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
- 3. Good Advertising ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
- 4. Good Advertising ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Advertising Federation of America

(Your Directory publishers fully subscribe to the principles set forth in this statement)

# Out of Sight--Out of Mind

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

Street and Avenue Guide Including Telephone Numbers, Home Owner Symbols and Zip Codes

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to alphabetical list of names.

The symbol of following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Zip code numbers are shown immediately following each street description. If a street runs through more than one zone the new zip code number is shown immediately preceding the lowest street number in the new zone.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading 'no return.' In each case the publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

### SERVICES

of R. L. Polk & Co.

### CITY DIRECTORIES

Polk City Directories are published regularly for more than 1,300 North American cities. Each Polk Directory is the one complete inventory of residents and businesses in the community for which it is published. The facts compiled for a City Directory include the name, address, occupation and marital status of each resident; the name, address, ownership and classification of each business. The vast fund of information in a Polk Directory helps bring together buyers and sellers, facilitates credit, speeds deliveries and communication and stimulates business generally. Polk also cooperates in maintaining City Directory Reference Libraries in cities throughout the United States and Canada.

### MARKETING SERVICES

Polk offers a full range of services to help businesses increase their sales volume. One of Polk's principal services is custom-produced selective mail advertising for many of the nation's leading advertisers. Other services include: Mailing and prospect lists, couponing and sampling, data processing services, publishing of controlled-circulation magazines, contest administration, fulfillment services, consumer and market research, warehousing and shipping, creative services and fulfillment services.

### **AUTOMOTIVE STATISTICS**

Polk has served as statistician for the automotive industry for more than 40 years. Polk's total count of cars, trucks, motorcycles and trailers, by make and year model, is the only annual inventory of the nation's wheeled population. Polk's new car and truck reports furnish manufacturers and dealers with regular capitulations of all sales for each territory. To produce these statistics, Polk maintains one of the largest electronic data processing installations in the country. By using Polk statistical services, American business can plan intelligently its production, distribution and sales.

### BANK DIRECTORY

Published semi-annually, Polk's Bank Directory is recognized as the outstanding reference book in the financial world. The directory carries detailed information on each of the nation's banks, showing officers, directors, branches, statement and other data. The book also includes a Summary of United States Banks, charts and statistics and a listing of governmental banking agencies and banking organizations. Polk also offers financial institutions a portfolio of marketing, advertising and research services.

# Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

#### Your City Directory Contains:

- An Alphabetical list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.
- A Householders' Directory including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.
- A Classified Business Directory—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.
- A "Yellow Section" or Buyers' Guide, where the advertiser may explain in greater detail the services or products he has to offer.
- A Statistical and Historical Story of your city; plus miscellaneous other information.

# THE CITY DIRECTORY

represents the City and its institutions in every corner of these United States
